CONCORD

OPERATING MILLAGE RENEWAL PROPOSAL

This proposal will allow the school district to continue to levy the statutory rate of 18 mills on all property, except principal residence and other property exempted by law, required for the school district to receive its revenue per pupil foundation allowance and renews millage that will expire with the 2011 tax levy.

Shall the currently authorized millage rate limitation of 5 mills (\$5.00 on each \$1,000 of taxable valuation) on the amount of taxes which may be assessed against all property, except principal residence and other property exempted by law, in Concord Community Schools, Jackson County, Michigan, be renewed for a period of 4 years, 2012 to 2015, inclusive, to provide funds for operating purposes; the estimate of the revenue the school district will collect if the millage is approved and levied in 2012 is approximately \$111,045 (this is a renewal of millage which will expire with the 2011 tax levy, restores millage lost as a result of the reduction required by the Michigan Constitution of 1963 and will be levied only to the extent necessary to restore that reduction)?

NAPOLEON

BONDING PROPOSAL

Shall Napoleon Community Schools, Jackson and Washtenaw Counties, Michigan, borrow the sum of not to exceed Twenty-One Million Eight Hundred Thousand Dollars (\$21,800,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of:

erecting, furnishing and equipping additions to the high school; remodeling, furnishing and refurbishing and equipping and re-equipping the high school; acquiring and installing educational technology at the high school; and developing and improving the site?

The following is for informational purposes only:

The estimated millage that will be levied for the proposed bonds in 2012, under current law, is 4.25 mills (\$4.25 on each \$1,000 of taxable valuation). The maximum number of years the bonds may be outstanding, exclusive of any refunding, is thirty (30) years. The estimated simple average annual millage anticipated to be required to retire this bond debt is 4.83 mills (\$4.83 on each \$1,000 of taxable valuation).

If the school district borrows from the State to pay debt service on the bonds, the school district may be required to continue to levy mills beyond the term of the bonds to repay the State.

(Pursuant to State law, expenditure of bond proceeds must be audited, and the proceeds cannot be used for repair or maintenance costs, teacher, administrator or employee salaries, or other operating expenses.)
